1. NATURE OF OPERATIONS AND GOING CONCERN

Torq Resources Inc. (the "Company" or "Torq") was incorporated under the Business Corporations Act (British Columbia) and is listed on the TSX Venture Exchange ("TSX-V") as a Tier 2 mining issuer. The Company's shares trade under the symbol TORQ.V in Canada and on the OTCQB under the US symbol TRBMF. The head office and principal address of Torq is located at 1400 - 1199 West Hastings Street, Vancouver, British Columbia, V6E 3T5.

The Company is principally engaged in the acquisition and exploration of mineral property interests with a focus in the Americas, particularly Chile.

These unaudited condensed interim consolidated financial statements for the three and six months ended June 30, 2025 and 2024 (the "financial statements") have been prepared on a going concern basis, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company is a resource exploration stage company, which does not generate any revenue and has been relying on equity and debt based financing to fund its operations. As at June 30, 2025, the Company has a working capital deficit of $1,571,131 (December 31, 2024 - $7,377,346) and a deficit of $108,487,797 (December 31, 2024 - $98,490,697). During the three and six months ended June 30, 2025, the Company incurred a net loss of $6,609,655 and $10,165,317, respectively (2024 - $2,051,916 and $6,735,066, respectively). The Company will require additional financing, either through equity or debt financing, sale of assets, joint venture arrangements, or a combination thereof to meet its administrative obligations and to continue to explore and develop its mineral properties. There is no assurance that sufficient future funding will be available on a timely basis or on terms acceptable to the Company. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern, these adjustments may be material.

5. EQUITY INVESTMENT

On April 1, 2022, the Company purchased a 25% share interest in a shared-service provider, UMS Canada for nominal consideration. The remaining 75% of UMS Canada is owned equally by Tier One Silver Inc., Coppernico Metals Inc. and Fury Gold Mines Limited. The Company further recognized as part of its net investment in UMS Canada, an initial cash deposit of $151,000, which is held by UMS Canada for the purposes of general working capital, the unused deposit will only be returned to the Company upon termination of the UMS Canada arrangement.

UMS Canada is located in Vancouver, British Columbia, Canada and provides geological, financial and transactional advisory services as well as administrative services to the Company and three other companies on a cost recovery basis. Having these services available through UMS Canada on an as-needed basis, allows the Company to maintain a more efficient and cost-effective corporate overhead structure by hiring fewer full-time employees and engaging outside professional advisory firms less frequently. The service agreement with UMS Canada has an indefinite term and can be terminated by each participating company upon providing due notice. UMS Canada is party to an office lease agreement with a term of ten years, for which certain rent expenses will be payable by the Company.

During the year ended December 31, 2024, UMS Canada entered a sublease agreement on the shared office space which as at June 30, 2025 reduces the Company's future lease payments to approximately $0.1 million in respect of future lease rent for the remaining 6 years.

The Company's credit risk relates primarily to cash, deposits and amounts receivable. c) Foreign exchange risk

Foreign exchange risk arises on financial instruments that are denominated in a currency other than the functional currency in which they are measured.

Financial liabilities		
Accounts payable and accrued liabilities	(44,862)	(1,823,075)
Net financial liabilities	**(41,613)**	**(1,066,135)**
