Torq Resources Inc.
Notes to the Condensed Interim Consolidated Financial Statements
For the three months ended March 31, 2026 and 2025
(Unaudited - Expressed in Canadian dollars, except where noted)

1. NATURE OF OPERATIONS AND GOING CONCERN

Torq Resources Inc. (the “Company” or “Torq”) was incorporated under the Business Corporations Act (British Columbia) and is listed on the TSX Venture Exchange (“TSX-V”) as a Tier 2 mining issuer. The Company’s shares trade under the symbol TORQ.V in Canada and on the OTCQB under the US symbol TRBMF. The head office and principal address of Torq is located at 1400 - 1199 West Hastings Street, Vancouver, British Columbia, V6E 3T5.

The Company is principally engaged in the acquisition and exploration of mineral property interests with a focus in the Americas, particularly Chile.

These unaudited condensed interim consolidated financial statements for the three months ended March 31, 2026 and 2025 (the “financial statements”) have been prepared on a going concern basis, which assumes that the Company will be able to continue in operation for at least the next twelve months from the reporting date and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The Company is a resource exploration stage company, which does not generate any revenue and has been relying on equity and debt-based financing to fund its operations. As at March 31, 2026, the Company’s current liabilities exceed current assets by \$4,878,629 (December 31, 2025 - \$3,293,337) and has a deficit of \$116,538,553 (December 31, 2025 - \$113,758,118). Included in cash at March 31, 2026 is \$908,888 of restricted cash (December 31, 2025 - \$2,377,325) that is not available for general working capital purposes and may only be used for activities associated with the Company’s Santa Cecilia project (Note 6). During the three months ended March 31, 2026, the Company incurred a net loss of \$3,014,717 (2025 - \$3,555,662). Historically, the Company’s primary sources of funding included proceeds from the private placement, issuance of equity to settle financial liabilities (Note 10) and extension of debt instruments (Note 8).

The Company will require additional financing, either through equity or debt financing, sale of assets, joint venture arrangements, or a combination thereof to meet its administrative obligations and to continue to explore and develop its mineral properties. There is no assurance that sufficient future funding will be available on a timely basis or on terms acceptable to the Company. These material uncertainties may cast significant doubt upon the Company’s ability to continue as a going concern. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern, these adjustments may be material.

2. BASIS OF PREPARATION

a) Statement of compliance

These financial statements were approved by the Board of Directors and authorized for issue on May 27, 2026.

These financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting*. These financial statements do not include all the information and disclosures required in annual financial statements. Accordingly, they should be read in conjunction with the notes to the Company’s audited consolidated financial statements for the years ended December 31, 2025 and 2024 (the “Annual Financial Statements”).

b) Basis of presentation

These financial statements have been prepared on a historical cost basis. In addition, except for cash flow information, these financial statements have been prepared using the accrual method of accounting.

c) Functional and presentation currency

These financial statements are presented in Canadian dollars (“\$”) which is also the Company’s functional currency. The functional currency is the currency of the primary economic environment in which an entity operates. References to “US\$” and “USD” are to United States dollars, and references to “CLP” are to Chilean pesos.

d) Basis of consolidation

These financial statements include the financial information of the Company and entities controlled by the Company. All intercompany transactions and balances are eliminated on consolidation. Control exists where the parent entity has power over the investee and is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Subsidiaries are included in the consolidated financial statements from the date control commences until the date control ceases. The accounting policies of subsidiaries are changed where necessary to align them with the policies adopted by the Company.

2. BASIS OF PREPARATION (continued)

A summary of the Company's subsidiaries included in these financial statements as at March 31, 2026 are as follows:

Name of subsidiary	Country of incorporation	Percentage ownership	Functional currency	Principal activity
Torq Resources Chile SpA	Chile	100%	USD	Holding company
Minera Margarita SpA	Chile	100%	USD	Mineral exploration
Minera Andrea SpA	Chile	100%	USD	Mineral exploration
Minera Santa SCM ⁽¹⁾	Chile	90%	USD	Mineral exploration
Torq Operaciones Chile SpA	Chile	100%	USD	Mineral exploration

(1) Since May 16, 2025, Gold Fields Limited retains 10% interest in Minera Santa SCM pursuant to the Initial Equity Interest (Note 6(c), 9), resulting in a non-controlling interest (Note 11).

These financial statements include a 25% investment in Universal Mineral Services Ltd. ("UMS Canada") which is a shared service entity (Note 5).

3. MATERIAL ACCOUNTING POLICIES

The accounting policies applied in the preparation of these financial statements are consistent with those applied and disclosed in the notes to the Annual Financial Statements.

On April 9, 2024, the IASB issued IFRS 18 *Presentation and Disclosure in Financial Statements*. IFRS 18 will apply for reporting periods beginning on or after January 1, 2027 and also applies to comparative information. IFRS 18 will replace IAS 1; many of the other existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it may change what an entity reports as its 'operating profit or loss'. Key new concepts introduced in IFRS 18 relate to: (i) the structure of the statement of profit or loss; (ii) required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and (iii) enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general. The Company is currently assessing the effects of IFRS 18 on the financial statements.

In May 2024, the IASB issued *Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)*. These amendments updated classification and measurement requirements in IFRS 9 *Financial Instruments* and related disclosure requirements in IFRS 7 *Financial Instruments: Disclosures*. The IASB clarified the recognition and derecognition date of certain financial assets and liabilities, and amended the requirements related to settling financial liabilities using an electronic payment system. It also clarified how to assess the contractual cash flow characteristics of financial assets in determining whether they meet the 'solely payments of principal and interest' criterion, including financial assets that have environmental, social and corporate governance-linked features and other similar contingent features. The IASB added disclosure requirements for financial instruments with contingent features that do not relate directly to basic lending risks and costs and amended disclosures relating to equity instruments designated at fair value through other comprehensive income. The amendments are effective for annual periods beginning on or after January 1, 2026 with early application permitted. The Company adopted these amendments effective January 1, 2026 retrospectively with no restatement of comparative information, in accordance with the transition requirements on initial application of IFRS 9, and adoption did not have a material impact on the classification, measurement, or disclosure of its financial instruments.

4. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and expenses. Management continually evaluates these judgments, estimates and assumptions based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates and judgments which may cause a material adjustment to the carrying amounts of assets and liabilities. The Company's interim results are not necessarily indicative of its results for a full year. The critical judgements and estimates applied in the preparation of these financial statements are consistent with those applied and disclosed in the notes to the Annual Financial Statements.

5. INVESTMENT IN ASSOCIATE

On April 1, 2022, the Company purchased a 25% share interest in a shared-service provider, UMS Canada for nominal consideration. The remaining 75% of UMS Canada is owned equally by Tier One Silver Inc., Coppernico Metals Inc. and Fury Gold Mines Limited. The Company further recognized as part of its net investment in UMS Canada, an initial cash deposit of \$151,000, which is held by UMS Canada for the purposes of general working capital, the unused deposit will only be returned to the Company upon termination of the UMS Canada arrangement.

UMS Canada is located in Vancouver, British Columbia, Canada and provides geological, financial and transactional advisory services as well as administrative services to the Company and three other companies on a cost recovery basis. The service agreement with UMS Canada has an indefinite term and can be terminated by each participating company upon providing due notice. UMS Canada is party to an office lease agreement with a term of ten years, for which certain rent expenses will be payable by the Company. During the year ended December 31, 2024, UMS Canada entered into a sublease agreement on the shared office space which as at March 31, 2026 reduces the Company's future lease payments to approximately \$75,765 in respect of future lease rent for the remaining 5.25 years.

A summary of the UMS Canada's net loss (income) and the Company's share of the net loss (income) is as follows:

a) Margarita Project

During the year ended December 31, 2024, the Margarita Project was fully impaired due to management's decision to focus on its more advanced Santa Cecilia Project. As a result, the Company recognized a \$2,310,070 impairment charge related to the Margarita Project for the year ended December 31, 2024.

b) Andrea Project

On March 25, 2024, the Company allowed its option on the Andrea Project to lapse by deciding not to make the required option payment of US\$300,000 in order to focus and prioritize its capital allocation to its more advanced Santa Cecilia Project. As a result, the Company recognized a \$438,891 impairment charge related to the project for the year ended December 31, 2024.

c) Santa Cecilia Project

On October 21, 2021, the Company announced that it had acquired an option to earn a 100% interest in the 3,250-hectare Santa Cecilia gold-copper project (the "Santa Cecilia Project") located approximately 100 km east of the city of Copiapo in Northern Chile. The project is in the southern region of the world-class Maricunga belt and immediately north of the El Indio belt.

In order to maintain the Santa Cecilia Project option agreement, the Company needs to make option payments totaling US\$25,000,000 and incur work expenditure totaling US\$15,500,000 as summarized in the table below. The Company has completed all the required option payments and work expenditure requirements in accordance with the option agreement to March 31, 2026.

The summary of total required cash payments and work expenditures under the option agreement is as follows:

	Cash payments	Work expenditure requirements
	US\$	US\$
October 21, 2021 (paid \$123,580)	100,000	-
October 21, 2022 (paid \$409,470)	300,000	-
October 21, 2023 (work expenditures requirement met)	-	3,000,000
October 21, 2024 (paid \$830,580 and work expenditures requirement met)	600,000	4,500,000
October 21, 2025 (paid \$1,399,600 and work expenditures requirement met)	1,000,000	8,000,000
October 21, 2026	3,000,000	-
October 21, 2027	5,000,000	-
October 21, 2028	15,000,000	-
	25,000,000	15,500,000

In order to be eligible to exercise the option to earn 100% interest in the project, the Company is required to complete total staged work expenditures of US\$15,500,000 over the period up to October 21, 2025, as well as complete 25,000 meters of drilling over the period up to October 21, 2028. As at March 31, 2026, the Company had incurred approximately US\$21,559,000 of eligible work expenditures and drilled 7,588 meters.

6. MINERAL PROPERTY INTERESTS (continued)

On July 31, 2024, the Company entered into a non-binding term sheet with an affiliate of Gold Fields Limited ("Gold Fields") with respect to a proposed option and joint venture agreement (the "Proposed Option Agreement") to advance the exploration and development of the Santa Cecilia Project.

On January 17, 2025, the Company finalized the terms of the Proposed Option Agreement and entered into a definitive option and joint venture shareholders agreement (the "JV Agreement") as well as a Chilean option agreement (the "Chilean Option Agreement", together with the JV Agreement the "Definitive Agreements") with Gold Fields.

Under the Definitive Agreements, Gold Fields retains the option to acquire 75% interest in Minera Santa SCM, which owns the Santa Cecilia Project by funding an aggregate amount of US\$48,000,000 as follows:

- Initial Equity Interest - A 10% interest by funding US\$6,000,000 of exploration expenditures, property payments and other expenses by July 17, 2027 (completed, Note 11 and Note 12);
- First Option - An additional 41% interest by funding an additional US\$12,000,000 of exploration expenditures, property payments and other expenses by July 17, 2027; and
- Second Option - A final 24% interest by funding a further US\$30,000,000 exploration expenditures, property payments and other expenses by January 17, 2031.

On May 16, 2025, pursuant to the Definitive Agreements the Company received sufficient funding from Gold Fields of \$9,192,613 (US\$6,469,955), which satisfied the US\$6,000,000 required for the Initial Equity Interest and earned Gold Fields a 10% interest in Minera Santa SCM (Note 11). The remaining contribution beyond US\$6,000,000 will be applied to the First Option and recorded in other equity reserve. As at March 31, 2026, the Company retains 90% ownership in Minera Santa SCM.

As at March 31, 2026, cash contains \$908,888 (December 31, 2025 - \$2,377,325) which is restricted to fund future exploration expenditures and settle accounts payable and accrued liabilities of \$357,841 (December 31, 2025 - \$802,911) at the Santa Cecilia Project.

8. LOAN FACILITY

A continuity of the Company's loan facility is as follows:

	\$
Balance, December 31, 2024	2,593,480
Accretion expense - pre-extinguishment	84,990
Loan extinguishment and recognition adjustment	(53,551)
Accretion expense - post-extinguishment	102,950
Balance, December 31, 2025	2,727,869
Accretion expense	33,575
Balance, March 31, 2026	2,761,444

On July 19, 2022, the Company secured a \$3,000,000 loan facility with 191010 Investments Limited, (the "Lender") with an initial maturity date of July 19, 2024, later amended to July 11, 2025. Under the loan agreement, the Company is required to issue share purchase warrants to the Lender with each advance. As at December 31, 2024, the Company had drawn down \$2,800,000 and issued 11,250,000 share purchase warrants exercisable at a weighted average price of \$0.26 per common share until July 11, 2025.

On March 23, 2025, the Company entered into an agreement with the Lender to further extend the maturity date of the loan facility from July 11, 2025, to July 11, 2026. In consideration of the extension, the Company agreed to cancel 7,500,000 share purchase warrants that were previously issued to the Lender and replace them with 46,666,667 share purchase warrants exercisable at a price of \$0.06 per share until July 11, 2026. In addition, the interest rate on the loan facility increased to 12% per annum from 9% per annum starting July 11, 2025. In consideration of the security priority waiver and a default waiver, the Company paid \$30,000 to the Lender which was recognized as part of the loss on extinguishment.

In accordance with IFRS 9 *Financial Instruments*, this amendment was treated as an extinguishment of the former loan facility and reissuance of a new loan facility. The Company recognized \$2,624,918 to the loan facility based on its estimated fair value under the extension. In addition, the Company recognized the fair value of the 46,666,667 share purchase warrants of \$1,532,514 which was determined using the Black-Scholes option pricing model ("BSM"). The extinguishment gave rise to a loss on extinguishment of \$991,460 during the year ended December 31, 2025 predominantly due to the fair value assigned to the 46,666,667 share purchase warrants.

The effective interest rate of the extended loan facility is estimated at 18.95%. During the three months ended March 31, 2026, the Company incurred accretion expense in respect of the loan facility of \$33,575 (2025 - \$87,373).

During the three months ended March 31, 2026, the Company incurred interest expense in respect of the loan facility of \$82,849 (2025 - \$62,137).

9. LOAN PAYABLE

On October 17, 2024, in relation to the Proposed Option Agreement, the Company entered into an interim loan and facility agreement (the "Loan Payable") with Gold Fields for an aggregate amount of \$2,529,784 (US\$1,810,000). The Loan Payable bore interest at a rate of 9% per annum and was to mature on October 17, 2025.

On May 16, 2025, pursuant to the Definitive Agreements, the Company received sufficient funding from Gold Fields to satisfy the US\$6,000,000 required for the Initial Equity Interest (Note 6(c)) and earned Gold Fields a 10% interest in Minera Santa SCM resulting in a non-controlling interest (Note 11). Pursuant to the Definitive Agreements, \$8,535,663 (US\$6,000,000) of the required funding under the Initial Equity Interest was converted to a capital contribution in Minera Santa SCM. The Company assigned a fair value of \$41,972 (US\$30,508) to the Initial Equity Interest, being 10% of the \$419,717 (US\$305,075) net assets of Minera Santa SCM as at May 16, 2025 and the remaining \$8,493,691 (US\$5,969,493) being reclassified to other equity reserve. Subsequent to May 16, 2025, contributions by Gold Fields were classified as other equity reserve (Note 12).

During the period from the signing of the Definitive Agreements on January 17, 2025 to May 16, 2025, the Company received \$5,961,209 (US\$4,158,045) from Gold Fields towards the Initial Equity Interest which was treated as a bridge loan and included within loan payable until the time that the Initial Equity Interest was met and the balance was reclassified to other equity reserve (Note 12).

A continuity of the Company's loan payable is as follows:

	\$
Balance, December 31, 2024	2,639,320
Additions from bridge loan	5,961,209
Interest	9,957
Conversion to capital contribution in Minera Santa SCM by Gold Fields	(41,972)
Conversion to other equity reserve	(8,493,691)
Currency translation differences	(74,823)
Balance, March 31, 2026 and December 31, 2025	-

During three months ended March 31, 2026, the Company incurred interest expense in respect of the loan payable of \$nil (2025 - \$9,957). On May 16, 2025, when Gold Fields achieved 10% interest in Minera Santa SCM, the total interest accrual of \$44,670 (US\$31,955) was included in the \$8,493,691 (US\$5,969,493) that was converted to other equity reserve (Note 12).

14. SEGMENTED INFORMATION

The Chief Operating Decision Maker (“CODM”) of the Company has been identified as the Chief Executive Officer, who makes strategic decisions and allocates resources across operating segments. The CODM has determined that the Company operates as one operating segment, being the acquisition and exploration of mineral resource properties. The Company’s primary exploration and evaluation assets are located in Chile, and its corporate assets, are located in Canada. The Company is in the exploration stage and has no reportable segment revenues or operating results. Most corporate expenses are incurred in Canada.

15. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

As at March 31, 2026, the Company’s financial instruments consist of cash, deposits, accounts payable and accrued liabilities, promissory note, and loan facility. All of these financial instruments are classified as and measured at amortized cost. The fair values of cash, deposits, accounts payable and accrued liabilities, promissory note, and loan facility approximate their carrying values due to their short-term to maturity.

The Company is exposed to certain financial risks by its financial instruments. The risk exposures and their impact on the Company’s financial statements are summarized below:

a) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company is exposed to liquidity risk through accounts payable and accrued liabilities as well as the loan facility. The Company is also committed to making certain future option payments under the Santa Cecilia option agreement (Note 6(c)). As the Company’s operations do not generate cash, financial liabilities are discharged using funding through the issuance of common shares or debt, as required. As at March 31, 2026, the Company had cash of \$991,442 (December 31, 2025 - \$2,451,173) to settle accounts payable and accrued liabilities of \$3,097,060 (December 31, 2025 - \$3,023,456), promissory note of \$88,281 (December 31, 2025 - \$85,795), and loan facility of \$2,761,444 (December 31, 2025 - \$2,727,869) with contractual maturities of less than one year. The Company will be required to raise additional funding to meet its financial obligations in the near term. There is no assurance that the necessary financing will be available in a timely manner or on terms acceptable to the Company. The Company assesses liquidity risk as high (Note 1).

b) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to fulfill its contractual obligations. The Company’s credit risk relates primarily to cash. The amount of credit risk to which the Company is exposed is considered insignificant as the Company’s cash is held with highly rated financial institutions in interest-bearing accounts.

c) Foreign exchange risk

Foreign exchange risk arises on financial instruments that are denominated in a currency other than the functional currency in which they are measured.

A summary of the Company’s financial assets and liabilities that are denominated in the US dollar and the Chilean peso as at March 31, 2026, expressed in Canadian dollars, is as follows:

	USD	CLP
	\$	\$
Financial assets		
Cash	1,057	982,768
Financial liabilities		
Accounts payable and accrued liabilities	(484,399)	(703,944)
Net financial liabilities	(483,342)	278,824

A 10% increase or decrease in the US dollar and Chilean peso exchange rates relative to the Companies and its subsidiaries’ functional currencies would result in an impact of approximately \$68,337 to the Company’s loss and comprehensive loss.

16. CAPITAL MANAGEMENT

The Company considers capital to include items within shareholders' equity. The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern such that it can provide returns for shareholders and benefits for other stakeholders. The management of the capital structure is based on the funds available to the Company in order to support the acquisition, exploration and evaluation of mineral properties and to maintain the Company in good standing. In order to maintain or adjust its capital structure, the Company may issue additional common shares. The Company monitors its capital structure and makes adjustments in light of changes in economic conditions and the risk characteristics of the underlying assets.

The properties in which the Company currently has an interest are in the exploration stage and are not positive cash-flow generating; as such, the Company has historically relied on equity and debt markets to fund its activities. Management reviews its capital management approach on an ongoing basis and believes that this approach is reasonable, given the relative size of the Company. The Company is not subject to any capital restrictions and the Company's approach to capital management has not changed from the prior periods.
