

**TORQ RESOURCES INC.**

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**For the three and six months ended June 30, 2026 and 2025**

(Expressed in Canadian dollars)

Dated: August 26, 2026

## **HIGHLIGHTS FOR THE SIX MONTHS ENDED JUNE 30, 2026 AND THE PERIOD UP TO AUGUST 26, 2026**

### **Corporate highlights**

- On May 12, 2026, Torq Resources Inc. (the "Company") announced the grant of 600,000 incentive stock options, to a new director, John Eren. The options are exercisable at \$0.10 and expire five years from the date of grant and will vest 25% on the date of grant and 12.5% every three months thereafter.
- On June 25, 2026, the Company disposed of 100% of the issued and outstanding shares of its subsidiary, Minera Margarita SpA ("Margarita").
- On August 20, 2026 the Company announced a non-brokered private placement (the "Private Placement") for gross proceeds of \$1,250,000 through the issuance of 25,000,000 units at a price of \$0.05 per unit. Each unit will comprise of one common share and one share purchase warrant. Each share purchase warrant will have an exercise price of \$0.10 per share and expire three years from the closing date of the Private Placement.

Completion of the Private Placement is a condition to a six-month extension of the Company's \$2,800,000 loan facility which matured on July 11, 2026. The six-month extension will run from completion of the Private Placement. The consideration for the extension is that the Lender will be granted 56,000,000 share purchase warrants exercisable at an exercise price of \$0.05 per share for a period of one year from the closing date of the Private Placement.

- On August 25, 2026, Marie-Helene Turgeon resigned as a Director of the Company, effective immediately, to pursue other business interests.

### **Operational highlights**

- On February 27, 2026, the Company announced that it is advancing the planning and preparation for a 2026 drill program at the Santa Cecilia Project to commence in Chilean springtime (late summer in North America). The program will be for approximately US\$11m, will be 100% funded by Gold Fields Limited ("Gold Fields") and is intended to target and further evaluate prospective areas, specifically Pircas Norte and Gemelos Norte, as well as other new areas with evidence of wide continuous Au-Cu mineralization.

## **DATE OF INFORMATION AND CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This management's discussion and analysis ("MD&A") has been prepared by management to assist the reader in assessing material changes in the financial condition and results of operations of the Company as at June 30, 2026. Commentary is made on the results of the period under review. This MD&A should be read in conjunction with the Company's unaudited condensed interim consolidated financial statements and related notes for the three and six months ended June 30, 2026 and 2025 (the "Financial Statements") which have been prepared in accordance with IFRS<sup>®</sup> Accounting Standards as issued by the International Accounting Standards Board and interpretations of the International Financial Reporting Interpretations Committee, including International Accounting Standard 34 *Interim Financial Reporting*. In addition, the MD&A should be read in conjunction with the audited consolidated financial statements for the years ended December 31, 2025 and 2024 (the "Annual Financial Statements"), and the management discussion and analysis for the years ended December 31, 2025 and 2024 (the "Annual MD&A"), as some disclosures from the Annual Financial Statements have been condensed or omitted in the Financial Statements.

In this MD&A, unless the context otherwise dictates, a reference to "us", "we", "our", or similar terms refers to the Company. The results for the periods presented are not necessarily indicative of the results that may be expected for any future period. The first, second, third and fourth quarters of the Company's fiscal years are referred to as "Q1", "Q2", "Q3" and "Q4", respectively. The six months ended June 30, 2026 and 2025 are referred to as "YTD 2026" and "YTD 2025" respectively.

All monetary amounts in the MD&A are expressed in Canadian dollars, the presentation currency of the Company, except number of shares or as otherwise indicated. References to "US\$" and "USD" are to United States dollars. The functional currency of the Company and its subsidiaries is disclosed in the notes to the Financial Statements. Additional information regarding the Company is available on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca) and the Company's website at [www.torqresources.com](http://www.torqresources.com). This MD&A has been prepared effective as of August 26, 2026 (the "MD&A Date").

United States readers should be aware that the Company uses mineral terminology based on the Canadian Institute of Mining and Metallurgy ("CIM"). CIM standards are not the same as those accepted by the US Securities Exchange Commission for US domestic mining company disclosure. Further details of these differences can be found in the Company's Annual Information Form filings.

## Forward-looking statements and risk factors

Certain statements made in this MD&A contain forward-looking information within the meaning of applicable Canadian and United States securities laws ("forward-looking statements"). These forward-looking statements are presented for the purpose of assisting the Company's shareholders and prospective investors in understanding management's intentions and views regarding future outcomes and are inherently uncertain and should not be heavily relied upon. When used in this MD&A, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Company, identify such forward-looking statements. Specific forward-looking statements in this MD&A may include, but are not limited to: the Company's ability to execute on its exploration and financing plans, the likelihood of discovering resources; the potential for access to and exploration of the Company's Santa Cecilia project; permitting timelines; government regulation of mining operations; environmental and climate-related risks; the possible impairment of mining interests; any objectives, expectations, intentions, plans, results, levels of activity, goals or achievements; the timing and amount of estimated exploration expenditures and capital raises for the Company; the liquidity of the common shares in the capital of the Company and other events or conditions that may occur in the future; the Company's intention to grow its business and its operations; the Company's competitive position; and changes to government regulation, in particular Chilean.

The forward-looking statements contained in this MD&A represent the Company's views as of the date hereof. The assumptions related to these plans, estimates, projections, beliefs and opinions may change without notice and in unanticipated ways. Many assumptions may prove to be incorrect, including the Company's budgeting plans, expected costs, assumptions regarding market conditions and other factors upon which the Company has based its expenditure and funding expectations; the Company's ability to obtain or renew the licenses and permits necessary for exploration; the Company's ability to complete and successfully integrate acquisitions; the possible effects of climate change, extreme weather events, water scarcity, and seismic events, and the effectiveness of strategies to deal with these issues; the Company's expectations regarding the future demand for, and supply and price of, precious and base metals; the Company's ability to recruit and retain qualified personnel; the Company's ability to comply with current and future environmental, safety and other regulatory requirements and to obtain and maintain required regulatory approvals.

Inherent in the forward-looking statements are known and unknown risks, uncertainties and other factors beyond the Company's ability to control or predict, that may cause the actual results, performance or achievements of the Company, or developments in the Company's business or in its industry, to adversely differ materially from the anticipated results, performance, achievements or developments expressed or implied by such forward-looking statements. Some of the risks and other factors (some of which are beyond the Company's control) which could cause results to differ materially from those expressed in the forward-looking statements and information contained in this MD&A include, but are not limited to, fluctuations in the current and projected prices for gold, other precious and base metals and other commodities (such as natural gas, fuel oil and electricity) which are needed for exploration activities; risks and hazards associated with the business of mineral exploration (including environmental hazards, potential unintended releases of contaminants, industrial accidents, unusual or unexpected geological or structural formations, pressures, cave-ins and flooding); the speculative nature of mineral exploration and development; the estimation of mineral resources, the Company's ability to obtain funding, including the Company's ability to complete future equity financings; the current lack of any estimated mineralized deposit; environmental risks and remediation measures, including evolving environmental regulations and legislation; changes in laws and regulations impacting exploration activities; the Company's mineral properties being subject to prior unregistered agreements, transfers or claims and other defects in title; legal and litigation risks; statutory and regulatory compliance; insurance and uninsurable risks; the Company's limited business history and history of losses and negative cash flow, which will continue into the foreseeable future; our inability to pay dividends, volatility in the Company's share price, the continuation of our management team and our ability to secure the specialized skill and knowledge necessary to operate in the mining industry; availability of drilling equipment and other exploration equipment; timely receipt of appropriate exploration permits; relations with and claims by local communities and non-governmental organizations, including relations with and claims by indigenous populations; the requirements of being a public company, including maintaining the listing requirements with TSX Venture Exchange ("TSX-V"); risks associated with the significant resources required to maintain regulatory compliance as a public company; the effectiveness of the Company's internal control over financial reporting; cybersecurity risks; risks relating to the Company's public perception; general business, economic, competitive, political and social uncertainties. This is not an exhaustive list of the risks and other factors that may adversely affect any of the Company's forward-looking statements.

The risk factors faced by the Company are the same as compared with risk factors disclosed in the Company's Annual MD&A for the years ended December 31, 2025 and 2024 as on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca) and the Company's website at [www.torgresources.com](http://www.torgresources.com) with exception to the following updated risk:

### Continuing military conflict in Ukraine, Iran and other areas:

The ongoing military conflict in Ukraine could lead to heightened volatility in the global financial markets, increased inflation, and turbulence in mining markets. The evolving conflict involving Iran and persistent geopolitical and political risks in the Persian Gulf region create significant uncertainty for global economic conditions, including potential disruptions to energy markets, supply chains, trade flows and financial systems. Such uncertainty, escalation or further deterioration in regional stability may materially and adversely affect the global economy and could have a corresponding adverse effect on the Company's business, financial condition, operating results and future outlook.

While the Company does not have any direct exposure or connection to Russia or Ukraine, or Iran and the gulf area, it remains uncertain as to how such events and any related economic sanctions could impact the global economy. Any negative developments in respect thereof could have an adverse effect on the Company's business, operations, financial condition, and the value of the Company's securities.

## **DESCRIPTION OF THE BUSINESS**

Torq Resources Inc. was incorporated under the Business Corporations Act (British Columbia) and is listed on the TSX Venture Exchange ("TSX-V") as a Tier 2 mining issuer. The Company's shares trade under the symbol TORQ.V in Canada and on the OTCQB under the US symbol TRBMF. The Company is principally engaged in the acquisition and exploration of mineral property interests with a focus in the Americas, particularly Chile.

A summary of the Company's subsidiaries as at June 30, 2026 are as follows:

| <b>Name of subsidiary</b>       | <b>Country of incorporation</b> | <b>Percentage ownership</b> | <b>Functional currency</b> | <b>Principal activity</b> |
|---------------------------------|---------------------------------|-----------------------------|----------------------------|---------------------------|
| Torq Resources Chile SpA        | Chile                           | 100%                        | USD                        | Holding company           |
| Minera Andrea SpA               | Chile                           | 100%                        | USD                        | Mineral exploration       |
| Minera Santa SCM <sup>(1)</sup> | Chile                           | 90%                         | USD                        | Mineral exploration       |
| Torq Operaciones Chile SpA      | Chile                           | 100%                        | USD                        | Mineral exploration       |

(1) Since May 16, 2025, Gold Fields Limited retains 10% interest in Minera Santa SCM pursuant to the initial equity interest, resulting in a non-controlling interest.

On June 25, 2026, the Company sold its Margarita subsidiary, for \$139,411 (CLP90,000,000). The proceeds from the transaction will be used to settle Margarita's outstanding liabilities. As a result of the transaction, the Company derecognized Margarita's net liabilities of \$131,775, and realized Margarita's accumulated other comprehensive loss of \$730,052, resulting in a loss on disposal of subsidiary of \$458,866.

The Company's performance and quarterly results include a 25% investment in Universal Mineral Services Ltd. ("UMS Canada") which is a shared service entity that is accounted for as an associate using the equity method.

## **Qualified persons and technical disclosures**

Bryan Atkinson, P.Geo., is the qualified person as defined by National Instrument 43-101 *Standards of Disclosure for Mineral Projects* with respect to the technical disclosures in this MD&A.

## **MINERAL PROPERTY INTERESTS**

A continuity of the Company's mineral property interests is as follows:

|                               | <b>Margarita Project</b> | <b>Andrea Project</b> | <b>Santa Cecilia Project</b> | <b>Total</b>     |
|-------------------------------|--------------------------|-----------------------|------------------------------|------------------|
|                               | \$                       | \$                    | \$                           | \$               |
| Balance, December 31, 2024    | -                        | -                     | 1,580,606                    | 1,580,606        |
| Option payments               | -                        | -                     | 1,399,600                    | 1,399,600        |

## **Margarita Project**

During the year ended December 31, 2024, the Margarita Project was fully impaired due to management's decision to focus on its more advanced Santa Cecilia Project. As a result, the Company recognized a \$2,310,070 impairment charge related to the Margarita Project for the year ended December 31, 2024.

On June 25, 2026, the Company disposed of all of the issued and outstanding shares of Margarita for gross proceeds of \$139,411 (CLP90,000,000) to a buyer seeking tax loss benefits. Pursuant to the agreement, the proceeds from the transaction will be used to settle Margarita's outstanding liabilities. As a result of the transaction, the Company derecognized Margarita's net liabilities of \$131,775, and realized Margarita's accumulated other comprehensive loss of \$730,052, resulting in a loss on disposal of subsidiary of \$458,866.

## Andrea Project

On March 25, 2024, the Company allowed its option on the Andrea Project to lapse by deciding not to make the required option payment of US\$300,000 in order to focus and prioritize its capital allocation to its more advanced Santa Cecilia Project. As a result, the Company recognized a \$438,891 impairment charge related to the project for the year ended December 31, 2024.

## Santa Cecilia Project

On October 21, 2021, the Company announced that it had acquired an option to earn a 100% interest in the 3,250-hectare Santa Cecilia gold-copper project, located approximately 100 km east of the city of Copiapo in Northern Chile. The project is in the southern region of the world-class Maricunga belt and immediately north of the El Indio belt.

In order to maintain the Santa Cecilia Project option agreement, the Company needs to make option payments totaling US\$25,000,000 and incur work expenditure totaling US\$15,500,000 as summarized in the table below. Through the MD&A Date, the Company has made all scheduled option payments totaling US\$2,000,000.

The summary of total required cash payments and work expenditures under the option agreement is as follows:

|                                                                           | Cash payments     | Work expenditures requirement |
|---------------------------------------------------------------------------|-------------------|-------------------------------|
|                                                                           | US\$              | US\$                          |
| October 21, 2021 (paid \$123,580)                                         | 100,000           | -                             |
| October 21, 2022 (paid \$409,470)                                         | 300,000           | -                             |
| October 21, 2023 (work expenditures requirement met)                      | -                 | 3,000,000                     |
| October 21, 2024 (paid \$830,580 and work expenditures requirement met)   | 600,000           | 4,500,000                     |
| October 21, 2025 (paid \$1,399,600 and work expenditures requirement met) | 1,000,000         | 8,000,000                     |
| October 21, 2026                                                          | 3,000,000         | -                             |
| October 21, 2027                                                          | 5,000,000         | -                             |
| October 21, 2028                                                          | 15,000,000        | -                             |
|                                                                           | <b>25,000,000</b> | <b>15,500,000</b>             |

The Company needs to complete total staged work expenditures of US\$15,500,000 over the period up to October 21, 2025, as well as complete 25,000 meters of drilling over the period up to October 21, 2028, which is a pre-requisite to exercising the option to earn 100% interest in the project. As at June 30, 2026, the Company had incurred approximately US\$22,313,000 of eligible work expenditures and drilled 7,588 meters.

On July 31, 2024, the Company entered into a non-binding term sheet with an affiliate of Gold Fields with respect to a proposed option and joint venture agreement (the "Proposed Option Agreement") to advance the exploration and development of the Santa Cecilia Project.

On January 17, 2025, the Company finalized the terms of the Proposed Option Agreement and entered into a definitive option and joint venture shareholders agreement (the "JV Agreement") as well as a Chilean option agreement (the "Chilean Option Agreement", together with the JV Agreement the "Definitive Agreements") with Gold Fields.

Under the Definitive Agreements, Gold Fields retains the option to acquire 75% interest in Minera Santa SCM, which owns the Santa Cecilia Project by funding an aggregate amount of US\$48,000,000 as follows:

- Initial Equity Interest - A 10% interest by funding US\$6,000,000 of exploration expenditures, property payments and other expenses by July 17, 2027 (completed);
- First Option - An additional 41% interest by funding an additional US\$12,000,000 of exploration expenditures, property payments and other expenses by July 17, 2027; and
- Second Option - A final 24% interest by funding a further US\$30,000,000 exploration expenditures, property payments and other expenses by January 17, 2031.

On May 16, 2025, pursuant to the Definitive Agreements the Company received sufficient funding from Gold Fields which satisfied the US\$6,000,000 required for the Initial Equity Interest and earned Gold Fields a 10% interest in Minera Santa SCM. The remaining contribution beyond US\$6,000,000 will be applied to the First Option.

As at June 30, 2026, cash contains \$599,720 (December 31, 2025 - \$2,377,325) which is restricted to fund future exploration expenditures and settle accounts payable and accrued liabilities of \$261,508 (December 31, 2025 - \$802,911) at the Santa Cecilia Project.

## **EXPLORATION AND EVALUATION EXPENSES**

A summary of the Company's exploration and evaluation expenses for the three months ended June 30, 2026 is as follows:

|                                              | <b>Margarita<br/>Project</b> | <b>Andrea<br/>Project</b> | <b>Santa Cecilia<br/>Project</b> | <b>Total</b>   |
|----------------------------------------------|------------------------------|---------------------------|----------------------------------|----------------|
|                                              | \$                           | \$                        | \$                               | \$             |
| Community relations                          | -                            | -                         | 36,376                           | 36,376         |
| Drilling program                             | -                            | -                         | 65,326                           | 65,326         |
| Environmental, permitting and concessions    | 21,167                       | -                         | 82,576                           | 103,743        |
| Equipment, vehicles, rent and field supplies | -                            | -                         | 6,934                            | 6,934          |
| Geological consulting, salaries, and wages   | 18,539                       | -                         | 390,351                          | 408,890        |
| Geophysics, sampling, and assays             | -                            | -                         | 19,344                           | 19,344         |
| Project support                              | 8,293                        | -                         | 247,913                          | 256,206        |

### **Exploration activities**

The Santa Cecilia project is located approximately 100 km east of the city of Copiapo, Chile, in the southern region of the world-class Maricunga belt and immediately north of the El Indio belt. The belt is characterized by gold epithermal and gold - copper porphyry deposits that are Oligocene - Miocene in age, including world-class multi-million-ounce deposits such as Salares Norte, La Coipa, Cerro Maricunga, Marte, Lobo, La Pepa, El Volcan, Caspiche and Cerro Casale.

The 3,250-hectare Santa Cecilia property is host to seven known porphyry targets situated within a large-scale hydrothermal alteration footprint which includes the Caspiche gold-copper deposit within Newmont and Barrick's Norte Abierto project. The Norte Abierto project is estimated to contain 1.29 billion tonnes grading 0.54 g/t gold and 1.17 billion tonnes grading 0.21% copper in measured and indicated resources, with additional inferred resources (see Barrick Gold Corporation news release dated February 6, 2025).

The Company has completed three phases of diamond drilling at Santa Cecilia testing three priority porphyry targets; Cerro Del Medio, Pircas Norte and Gemelos Norte. The Phase I 2023 drilling campaign, 2,059m in two drill holes, intercepted 557 m of 0.38 g/t gold, 0.23% copper and 56 ppm molybdenum in wall rock at a depth of 442 m - 999 m in drill hole 23SC-DDH-003. This intercept bottomed in grade and represented an 81% increase in the gold grade from historical drilling, indicating that Torq may be vectoring toward the higher-grade causative intrusion.

The Phase II diamond drilling campaign commenced in February 2024 and comprised approximately 1,500 m over three diamond drill holes; two located at the Pircas Norte target and one at the Gemelos Norte target. Drill hole 24SC-DDH-003 intercepted 0.36 g/t gold (Au) and 0.078% copper (Cu) over 502 m from 98 m down hole, including a higher-grade interval of 0.69 g/t Au and 0.10% Cu over 20 m from 354 m down hole at Pircas Norte. The drill hole ended in mineralized intrusive diorite breccia due to logistical limitations and the reported intercept remains open. 24SC-DDH-005, intercepted an interval of 120 m with 1.33 g/t gold (Au), 0.096% copper (Cu) at a depth of 376 m to 496 m (end of hole) ending in mineralization. A high-grade quartz vein was included within the broader interval, which returned 2.0 m of 47.90 g/t gold from 414 m. A selective sample of a 27 cm wide quartz vein from 484.63 m assayed 39.70 g/t gold. Drill hole 24SC-DDH-005 intercepted four other zones of significant gold and copper mineralization including 118 m of 0.26 g/t gold and 0.034% copper from surface. The hole was drilled 315 meters southeast of 23SC-DDH-003. The reported interceptions from the Pircas Norte discovery demonstrate both the overall potential scale and grade of the mineralized body which remains open in all directions.

A single drill hole, 24SC-DDH-004, was completed at Gemelos Norte as part of the Phase II campaign. 24SC-DDH-004 intercepted 98 m of 0.18 g/t gold and 0.043% copper (Cu) at a downhole depth of 274 m and, 10 m of 0.36 g/t Au and 0.004% Cu at a depth of 12 m. The entire drill hole was anomalous in both copper and gold mineralization and the Gemelos Norte target remains open.

The Phase III diamond drilling campaign was completed in June 2025 with results released on August 20, 2025. The Phase III drilling campaign focused on two target areas, Gemelos Norte and Pircas Norte. Three drill holes completed at Gemelos Norte target confirmed a new copper gold porphyry discovery within the Santa Cecilia project including results of up to 450m of 0.51 g/t gold and 0.155% copper while step-out drilling at Pircas Norte (2 drill holes) extended mineralization at depth drilling 206m of 0.99 g/t gold and 0.109% Cu within 266m of 0.81 g/t Au and 0.097% Cu. The drilling at Gemelos Norte intercepted a new porphyry complex extending gold-copper mineralization at Santa Cecilia to the eastern limit of the property. At Pircas Norte, drilling extended gold-copper mineralized bodies to the north and west by over 100m. Currently, the known gold-copper mineralization at Santa Cecilia extends in an east-west direction for approximately 3,500m.

The Company is encouraged by the results to date from the limited drilling at both Pircas Norte and Gemelos Norte and is currently planning additional drilling with a particular focus on the high-grade broad gold mineralization seen at Pircas Norte. The recent drilling confirms the Company's exploration thesis for the broader Santa Cecilia project.

Figure 1: Santa Cecilia Drilling Locations at three priority porphyry targets; Cerro del Medio, Pircas Norte and Gemelos Norte.

### Climate related risks

The Company recognizes the impact of climate change on weather patterns at its projects and specific care and protocols must be applied accordingly. It is evident that there have been climatic changes that affect the entire Chilean territory, including persistent drought and a change of climate for the seasons that were clearly defined more than a decade ago. This has produced two fundamental effects: less water resources in rivers, lakes and lagoons, and changing consequences of rain events in desert lands, producing mud currents, which in recent years have had a significant impact on some rivers in the northern part of the country.

At Santa Cecilia, depending on the weather conditions, the Company is able to carry out field activities up until the winter season commences in early June.

The Company is taking extensive measures to prioritize safe access to the project for all personnel. The field experience of the local teams and the knowledge of neighboring projects play a fundamental role in this care, and in the proactive management of the risks associated with working in remote exploration areas, with the access limitations and closing for the winter seasons due to their weather conditions.

## SUMMARY OF QUARTERLY RESULTS

The following table shows results from the previous eight fiscal quarters:

| Period ending        | Net loss         | Comprehensive loss | Net loss per share |
|----------------------|------------------|--------------------|--------------------|
|                      | \$               | \$                 | \$                 |
| <b>June 30, 2026</b> | <b>2,055,703</b> | <b>1,248,185</b>   | <b>0.01</b>        |
| Mar 31, 2026         | 3,014,717        | 2,928,469          | 0.01               |
| Dec 31, 2025         | 3,593,837        | 3,721,742          | 0.02               |
| Sep 30, 2025         | 2,001,392        | 1,979,056          | 0.01               |
| Jun 30, 2025         | 6,609,655        | 6,666,518          | 0.04               |
| Mar 31, 2025         | 3,555,662        | 3,557,763          | 0.03               |
| Dec 31, 2024         | 3,991,185        | 3,937,228          | 0.03               |
| Sep 30, 2024         | 1,688,073        | 1,641,869          | 0.01               |

The summary of last eight quarters reflects significant losses as the Company began surface exploration at the projects which were optioned during 2021. The losses were especially high in Q2 2025 due to the extensive drill program that took place at Santa Cecilia following the signing of the Definitive Agreements with Gold Fields. Net losses were significantly lower in quarters such as Q2 2026 and Q3 2024 as the Company was not drilling at Santa Cecilia or Margarita during these periods.

During 2024 the Company enacted significant cash conservation measures, including a 50% pay-cut for all salaried North American senior executives and reduced spending on discretionary marketing. Net loss increased during Q4 2024 primarily due the Company recognizing a \$2,310,070 impairment charge related to the Margarita Project as it plans to focus its resources and expenditures on the more advanced Santa Cecilia Project.

### Q2 2026 compared to Q2 2025

Net loss decreased to \$2,055,703 compared to \$6,609,655 in the prior year comparable period. The primary drivers of this decrease in the net loss were as follows:

- Exploration and evaluation expenses decreased to \$948,563 compared to \$5,309,145 in the prior year comparable period due to the extensive drill program that took place in Q2 2025 at Santa Cecilia project, following the signing of the Definitive Agreements.
- Legal and professional fees decreased to \$43,543 compared to \$177,504 in the prior year comparable period primarily due to additional legal fees related to the Definitive Agreements and satisfaction of the Initial Equity Interest with Gold Fields incurred in the prior year comparable period.

- Loss on share for debt settlement was \$nil compared to \$591,229 in the prior year comparable period due to the amendment to the loan facility in Q1 2025 which resulted in a loss from derecognition of the old loan facility and share purchase warrants, and recognition of the new loan facility and share purchase warrants.

Partially offsetting the decrease in net loss during Q2 2026 were:

- Fees, salaries and other employee benefits increased to \$289,121 compared to \$264,039 in the prior year comparable period primarily due to share-based compensation of \$60,802 in connection with the vesting of stock options granted to a director of the Company on May 11, 2026.
- Marketing and investor relations increased to \$53,558 compared to \$13,193 in the prior year comparable period primarily due to the engagement of an external consultant to provide investor relations services to raise the profile of the Company ahead of future capital raises.
- Loss on disposal of subsidiary increased to \$458,866 compared to \$nil in the prior year comparable period primarily due to the sale of Margarita on June 25, 2026.

## YTD 2026 compared to YTD 2025

Net loss decreased to \$5,070,420 compared to \$10,165,317 in the prior year comparable period. The primary drivers of this decrease in the net loss were as follows:

- Exploration and evaluation expenses decreased to \$3,241,848 compared to \$8,093,103 in the prior year comparable period due to the extensive drill program that took place in Q2 2025 at Santa Cecilia project, following the signing of the Definitive Agreements.
- Legal and professional fees decreased to \$137,501 compared to \$280,686 in the prior year comparable period primarily due to additional legal fees related to the Definitive Agreements and satisfaction of the Initial Equity Interest with Gold Fields incurred in the prior year comparable period.
- Loss on share for debt settlement was \$nil compared to \$591,229 in the prior year comparable period due to the amendment to the loan facility in Q1 2025 which resulted in a loss from derecognition of the old loan facility and share purchase warrants, and recognition of the new loan facility and share purchase warrants.
- Loss on extinguishment of loan facility was \$nil compared to \$121,531 in the prior year comparable period due to the amendment to the loan facility in Q1 2025 which resulted in a loss from derecognition of the old loan facility and share purchase warrants, and recognition of the new loan facility and share purchase warrants.

Partially offsetting the decrease in net loss during YTD 2026 were:

- Fees, salaries and other employee benefits increased to \$585,552 compared to \$518,290 in the prior year comparable period primarily due to share-based compensation of \$119,609 in connection with the vesting of stock options granted to a director of the Company on May 11, 2026.
- Marketing and investor relations increased to \$113,969 compared to \$14,040 in the prior year comparable period primarily due the engagement of an external consultant to provide investor relations services to raise the profile of the Company ahead of future capital raises.
- Loss on disposal of subsidiary increased to \$458,866 compared to \$nil in the prior year comparable period primarily due to the sale of Margarita on June 25, 2026.

## LIQUIDITY AND CAPITAL RESOURCES

### Liquidity

To date, the Company's primary sources of liquidity are equity issuances, the loan facility and funds received from Gold Fields pursuant to the Definitive Agreements. The funds are used to finance working capital, explore mineral properties and to make certain annual payments to ensure that all the Company's mineral properties remain in good standing.

A summary of the Company's cash position and changes in cash is as follows:

|                                       | YTD 2026    | YTD 2025    |
|---------------------------------------|-------------|-------------|
|                                       | \$          | \$          |
| Cash used in operating activities     | (4,108,575) | (8,066,830) |
| Cash provided by investing activities | 10,753      | 38,256      |
| Cash provided by financing activities | 2,335,036   | 8,356,209   |

Cash used in operating activities decreased to \$4,108,575 from \$8,066,830 in the prior comparable period. The higher cash outflow in the prior year comparable period was primarily due the higher exploration and evaluation expenses in the prior year comparable period due to the extensive drill program that took place in Q2 2025 at Santa Cecilia project, following the signing of the Definitive Agreements partially offset by the build up of account payable balances related to these expenses.

Cash provided by investing activities was \$10,753 compared to \$38,256 in the prior comparable period. The cash provided by investing activities was primarily due to interest income on lower average savings accounts balances compared to prior year comparable period.

Cash provided by financing activities decreased to \$2,335,036 from \$8,356,209 in the prior comparable period. During the period ended June 30, 2026, the Company received in total \$2,335,036 (US\$1,701,400) funding from Gold Fields pursuant to the Definitive Agreement. During Q2 2025, the Company received \$7,236,676 (US\$5,080,000) additional Loan Payable from Gold Fields and proceeds of \$1,212,360 received for a non-brokered private placement which closed in Q2 2025.

The Company has incurred operating losses to date and does not generate revenue from operations to support its activities. With no source of revenue, there is no assurance that sufficient funding will be available to conduct further exploration of its mineral properties and maintain the Company in good standing. The ability to continue as a going concern remains dependent upon Torq's ability to obtain the financing necessary to continue to fund its mineral properties, the realization of future profitable production, proceeds from the disposition of its mineral interests, and/or other sources. These conditions create a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

## Capital resources

### Future option payments

A summary of scheduled option payments on mineral property interests are as follows:

|                  | <b>Santa Cecilia<br/>Project</b> |
|------------------|----------------------------------|
|                  | US\$                             |
| October 21, 2026 | 3,000,000                        |
| October 21, 2027 | 5,000,000                        |
| October 21, 2028 | 15,000,000                       |

The Company intends to fund future option payments through equity and debt financings, as well as funding from Gold Fields pursuant to the Definitive Agreements.

## RELATED PARTY TRANSACTIONS AND KEY MANAGEMENT COMPENSATION

### a) Related party transactions with UMS Canada

A summary of the Company's transactions with UMS Canada, the Company's 25% equity investment is as follows:

|                                            | <b>Q2 2026</b> | <b>Q2 2025</b> | <b>YTD 2026</b> | <b>YTD 2025</b> |
|--------------------------------------------|----------------|----------------|-----------------|-----------------|
|                                            | \$             | \$             | \$              | \$              |
| Exploration and evaluation expenses        | <b>2,468</b>   | 15,502         | <b>3,448</b>    | 56,455          |
| Fees, salaries and other employee benefits | <b>51,881</b>  | 76,604         | <b>122,507</b>  | 143,242         |
| Legal and professional fees                | <b>923</b>     | 3,426          | <b>4,672</b>    | 13,255          |
| Office and administration                  | <b>31,926</b>  | 26,447         | <b>61,948</b>   | 54,272          |
| Unit issuance costs                        | -              | 927            | -               | 927             |
|                                            | <b>87,198</b>  | 122,906        | <b>192,575</b>  | 268,151         |

As at June 30, 2026, accounts payable and accrued liabilities included \$508,006 (December 31, 2025 - \$318,607) due to UMS Canada and prepaid expenses and deposits included \$17,572 (December 31, 2025 - \$30,377) relating to transactions with UMS Canada. All transactions with UMS Canada have occurred in the normal course of operations. All balances are unsecured, non-interest bearing and have no specific terms of repayment, unless otherwise noted.

The Company grants options to certain UMS Canada employees including key management personnel of the Company. During the three and six months ended June 30, 2026, the Company recognized a share-based compensation expense of \$5,561 and \$14,034, respectively (2025 - \$nil and \$nil, respectively) in respect of stock options granted to UMS Canada employees.

## b) Key management compensation

Key management personnel are those who have the authority and responsibility for planning, directing, and controlling the Company. A summary of the Company's related party transactions with key management is as follows:

|                                                           | Q2 2026 | Q2 2025 | YTD 2026 | YTD 2025 |
|-----------------------------------------------------------|---------|---------|----------|----------|
|                                                           | \$      | \$      | \$       | \$       |
| Exploration and evaluation expenses                       | 60,947  | 56,222  | 121,709  | 112,966  |
| Fees, salaries and other employee benefits <sup>(1)</sup> | 97,227  | 109,035 | 217,619  | 224,520  |
| Share-based compensation                                  | 39,309  | -       | 63,106   | -        |
|                                                           | 197,483 | 165,257 | 402,434  | 337,486  |

(1) During the three and six months ended June 30, 2026, included in fees, salaries and other employee benefits was a total of \$17,061 and \$34,162 (2025 - \$5,781 and \$31,365, respectively) incurred with the Company's directors for services rendered during the period.

As at June 30, 2026, accounts payable and accrued liabilities contain amounts due to key management personnel of \$813,567 (December 31, 2025 - \$537,194) and \$446,816 (December 31, 2025 - \$446,816) due to Gold Fields. The amounts are due upon demand with the \$446,816 (US\$326,000) due to Gold Fields accruing interest at 4% per annum.

## OFF-BALANCE SHEET ARRANGEMENTS

The Company had no off-balance sheet arrangements as at June 30, 2026 and as at the MD&A date.

## SIGNIFICANT ACCOUNTING JUDGEMENTS AND SOURCES OF ESTIMATION UNCERTAINTY

The Company's significant accounting judgements and sources of estimation uncertainty are disclosed in the notes to the Company's Financial Statements.

## CHANGES IN ACCOUNTING POLICIES

The Company has reviewed new and revised accounting pronouncements that are effective for annual periods beginning on or after January 1, 2026. See the Financial Statements for details of the all material accounting policies applied in 2026 which includes any new and revised accounting policies. Future pronouncements issued but not yet effective have also been disclosed in note 3 of the Financial Statements.

The Company has not early adopted any new accounting standard, interpretation or amendment that has been issued but is not yet effective.

## FINANCIAL RISK MANAGEMENT

As at June 30, 2026, the Company's financial instruments consist of cash, deposits, accounts payable and accrued liabilities, promissory note, and loan facility. All of these financial instruments are classified as and measured at amortized cost. The fair values of cash, deposits, accounts payable and accrued liabilities, promissory note, and loan facility approximate their carrying values due to their short-term to maturity.

The Company is exposed to certain financial risks by its financial instruments. The risk exposures and their impact on the Company's financial statements are summarized below:

### a) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company is exposed to liquidity risk through accounts payable and accrued liabilities as well as the loan facility. The Company is also committed to making certain future option payments under the Santa Cecilia option agreement. As the Company's operations do not generate cash, financial liabilities are discharged using funding through the issuance of common shares or debt, as required. As at June 30, 2026, the Company had cash of \$731,089 (December 31, 2025 - \$2,451,173) to settle accounts payable and accrued liabilities of \$3,259,644 (December 31, 2025 - \$3,023,456), promissory note of \$90,794 (December 31, 2025 - \$85,795), and loan facility of \$2,795,812 (December 31, 2025 - \$2,727,869) with contractual maturities of less than one year. The Company will be required to raise additional funding to meet its financial obligations in the near term. There is no assurance that the necessary financing will be available in a timely manner or on terms acceptable to the Company. The Company assesses liquidity risk as high.

**b) Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to fulfill its contractual obligations. The Company's credit risk relates primarily to cash. The amount of credit risk to which the Company is exposed is considered insignificant as the Company's cash is held with highly rated financial institutions in interest-bearing accounts.

**c) Foreign exchange risk**

Foreign exchange risk arises on financial instruments that are denominated in a currency other than the functional currency in which they are measured.

A summary of the Company's financial assets and liabilities that are denominated in the US dollar and the Chilean peso ("CLP") as at June 30, 2026, expressed in Canadian dollars is as follows:

|                                          | USD              | CLP            |
|------------------------------------------|------------------|----------------|
|                                          | \$               | \$             |
| <b>Financial assets</b>                  |                  |                |
| Cash                                     | 1,053            | 713,468        |
| Amounts receivable                       | -                | 90,203         |
| <b>Financial liabilities</b>             |                  |                |
| Accounts payable and accrued liabilities | (531,390)        | (535,755)      |
| <b>Net financial liabilities</b>         | <b>(530,337)</b> | <b>267,916</b> |

A 10% increase or decrease in the US dollar and Chilean peso exchange rates relative to the Company and its subsidiaries' functional currencies would result in an impact of approximately \$71,888 to the Company's loss and comprehensive loss.

**OUTSTANDING SHARE DATA**

A summary of the Company's issued and outstanding securities is as follows:

|                         | June 30,<br>2026   | MD&A<br>Date       |
|-------------------------|--------------------|--------------------|
|                         | #                  | #                  |
| Common shares           | 185,897,146        | 185,897,146        |
| Stock options           | 13,571,250         | 13,571,250         |
| Share purchase warrants | 114,645,554        | 67,978,887         |
|                         | <b>314,113,950</b> | <b>267,447,283</b> |

On July 11, 2026, 46,666,667 of the Company's share purchase warrants expired unexercised.

## **DISCLOSURE CONTROLS AND PROCEDURES**

As defined in National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*, disclosure controls and procedures require that controls and other procedures be designed to provide reasonable assurance that material information required to be disclosed is duly gathered and reported to senior management in order to permit timely decisions and timely and accurate public disclosure.

Management is responsible for the establishment and maintenance of a system of internal control over financial reporting. This system has been designed to provide reasonable assurance that assets are safeguarded and that the financial reporting is accurate and reliable. The Financial Statements have been prepared by management in accordance with IFRS Accounting Standards as issued by the IASB and in accordance with accounting policies set out therein.

Management of the Company, with the participation of the Chief Executive Officer and the Chief Financial Officer, have evaluated the design of the Company's disclosure controls and procedures and the design of internal controls over financial reporting as required by Canadian securities laws, and have concluded that such procedures are adequate to ensure accurate and complete disclosures in public filings.

There are inherent limitations in all control systems and no disclosure controls and procedures can provide complete assurance that no future errors or fraud will occur. An economically feasible control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Additional disclosures pertaining to the Company's management information circulars, material change reports, press releases and other information are available on the SEDAR+ website at [www.sedarplus.ca](http://www.sedarplus.ca) under the Company's profile.

On behalf of the Board of Directors,

"Shawn Wallace"

**Shawn Wallace**

Chief Executive Officer and Chair
